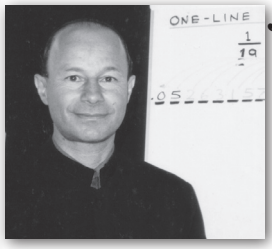
Jain MatheMagics

VEDIC MATHEMATICS SACRED GEOMETRY MAGIC SQUARES ANCIENT KNOWLEDGE



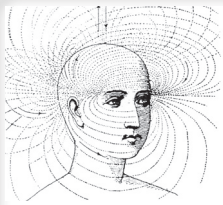
Jain's Interactive Workshops will help you discover

Maths as Art

Maths as Science

Maths as History

Find out what you didn't learn in school...



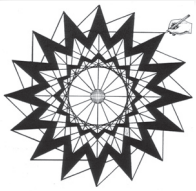
Vedic Mathematics
(Rapid Mental Calculation)

Find out how to accomplish complex and rapid calculations...in your head!

Used by NASA but not released to the public, Vedic Mathematics is on the leading eday of rediscovered technology - an ancient yet simple system of mental one-line arithmetic.

Jain will show you the 16 basic Sutras - Word Formulae - which can solve all known mathematical problems.

You will learn to multiply 2-digit x 2 Digit numbers, like 24 x 24 in your head... with no calculator, pen or paper.



Magic Squares
(Translating Numbers into Atomic Art)

The Ancients discovered internal symmetries and harmonies that lay hidden within the chaos...elegant and PHi-Ratioed patterns,... atomic structures often symbolic of life's journey.

The Magic Square of 3x3, known as the Lo-Shu, in ancient China, is the centre of the Sino/Tibetan Cosmology. The sums of the columns, rows and diagonals all add up to 15, symbolically creating Order amidst the Chaos, and Equality in all dimensions.

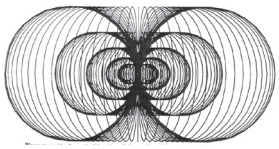
Jain will show you how to create complex and intricate atomic art from numbers in various Magic Squares.

Three-Dimensional Sacred Geometry
(5 Platonic Solids)

Explore multi-dimensional geometry and the sub-atomic realm... Jain will help you grasp the concepts of a Fourth Dimension and Time Travel.

Discover the importance of the Star Tetrahedron's 24 faces and 24 edges, and how this links to the 24 edges of the Cube Octahedron...the compressible and alchemical shape revered by Buckminster Fuller. Glimpse hidden mysteries within the 5 Platonic Solids and the 13 Archimedean Solids. Learn the 3-Dimensional form of the 5-pointed star that Pythagoras called the fifth element - Spirit aka Dodecahedron.

Learn the true value of Pi, based on Fractal Compression: Jain Pi = 3.14460...



Divine Proportion
(Lost Secrets of the 108 Phi Code)

Explore ancient hidden mysteries with Jain... why the shape of the pine cone is optically similar to the human heart, why we are awestruck when we view Sacred Architecture like the Parthenon of Greece and the Pyramids of Giza, and why we are attracted to the famous Mona Lisa.

Discover the secret codes concealed in the Gayatri Mantra, the most famous Eastern prayer for Enlightenment

The human body is in resonance with the Living Mathematics of Nature. Embrace part of the Ascension process already morphologically and geometrically encoded into our bio-magnetic and bio-electrical fields.
